9:00 AM – 9:15 AM **Opening Remarks – Florida/Brevard Statistics**

9:15 AM – 10:15 AM **Plenary Session:**

Changing Perspective: Early Identification and Intervention of Prenatal Mental Health

This session will discuss best practices on caring for and resolving prenatal substance use disorders by incorporating evidence-based screening tools that identify mental health and substance use disorders in an OB/GYN practice. Attendees will learn how to incorporate basic therapeutic interviewing skills with the medical model of prenatal care to increase treatment compliance amongst moms with mental health and comorbid substance use disorders.

- Erin Shea, LCSW

Licensed Clinical Social Worker, Brevard Health Alliance

10:15 AM – 10:30 AM **Break and Visit Exhibits**

10:30 AM – 11:30 AM **Plenary Session:**

The “New” Heroin Epidemic

Participants will be presented with the history of opioid use/ prescribing in the country between 1990 and today. At the end of the presentation, they will have a working knowledge of what led us to the heroin overdose rates we are experiencing and how opioid dependency changes and affects the body and brain of those addicted.

- Dave Kneessy, MS, MAC, MCAP, LMHC

Regional Director, Central Florida Treatment Center

11:30 AM – 12:15 PM **Lunch and Visit Exhibits**

12:15 PM – 1:15 PM **Plenary Session:**

What is Medication Assisted Treatment and Our Pregnant Patients

This session will provide an overview of MAT from assessment, intake and induction through stable maintenance. There will be a discussion of the concept of maintenance medication for a medical disease as well as the stigma and discrimination experienced by those in addictions treatment. Participants will be given an overview and information on studies of MAT and pregnancy to the extent that they will understand the actual impact of medications such as Methadone and Buprenorphine with pregnant opioid dependent patients.

- Dave Kneessy, MS, MAC, MCAP, LMHC

Regional Director, Central Florida Treatment Center

1:15 PM – 2:15 PM **Plenary Session:**

Neonatal Abstinence Syndrome, What You Need To Know

This session provides an overview of Neonatal Abstinence Syndrome and best practices to care for these infants based on the evidence. This talk will address identification of symptoms, methods for assessment, and some supportive interventions to improve outcomes for these vulnerable infants.

- Sue Bowles, DNP, CNS, RNC-NIC, CBC
